

FLOORING GRADES

Select

Cabin

Rustic

Select

Hand picked kiln dried lumber, approximately 90% clear of any streaks, knots or markings. All plank ends are cut square ready for installation. This grade preferred for a more formal appearance.

Cabin

Our most popular! Hand picked kiln dried lumber, approximately 75% clear showing some of the wood's natural character, such as knots, mineral streaks and color variation. Some characteristics may not be desirable to everyone. Therefore, estimate an additional 10-15% to allow for waste. Adds beauty and character to any setting. Plank ends are not trimmed for this grade.

Rustic

Hand picked kiln dried lumber, approximately 50% character. Open knots, mineral streaks, small cracks and markings are evident and bring out the 'history' of each board. Plank ends are not trimmed for this grade.
